ABOUT US

- Established in 2019, Jecor LED dedicated to **Chemical Manufacturing, Corrugated Box, Paper Tube**
We are an ISO 9001:2015 certified company.
- All Solutions that come from our facility, go through a stringent quality testing procedures and are manufactured on **Japanese SMT Lines** that ensure flawless product quality. **Superior Quality Materials** and workmanship ensure a great return on your investment.
- We support the Government's Make in India initiative and all our products are manufactured at our State of the Art facility in Vapi. Our technological partnership with **OSRAM**, Germany has enabled us to design and develop the finest quality Luminaires for our customers.

MANUFACTURING FACILITY - VAPI

- Our State of the Art Factory in Vapi has an area of over 20,000 sq. ft.
- It is equipped with Japanese SMT Machinery for accurate component placement to ensure stringent product quality
- Our R&D and RMA facilities also operate from here for product development and after sales support

Certified of ISO 9001:2015 & Compliance

GROUPS OTHER BUSINESSES

Chemical

- Established in 1992

Corrugated
Box

- The division was established in the year 2012.

Paper Tube

- The division was established in the year 2019.

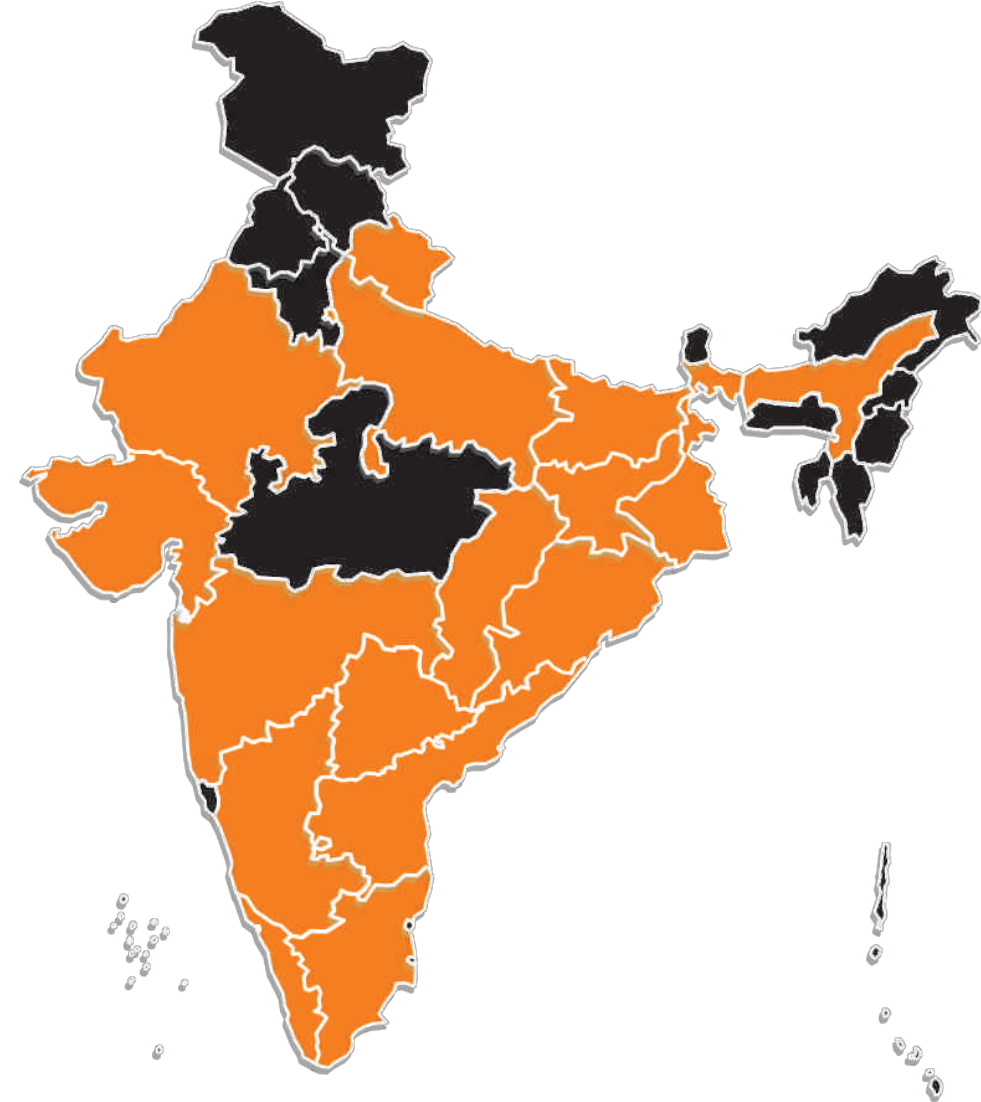

KEY STRENGTHS

- In-house Designing, Research & Development and Testing of Luminaires
- Thrust on using approved technology applications and branded components across entire product range
- Strong capability to customize light applications to suit varying customer needs
- Specifically designed products for Indian Power Conditions
- Focused quality approach – standard approved BOMs and vendors to ensure quality and consistency
- Strong Marketing Arm – PAN India Sales, Distribution and Service network
- Unparalleled Customer Service and Retention

LUMENS	120 / P / W /	BODY/FRAME	PKW
CRI	80 >	CCT	3K, 4K, 6K
		POWERED BY	Jecor Lights

BENEFITS OF JECOR LED LUMINAIRES

- We use the best components and meticulously ensure that our customers have access to the best in class LEDs
- Our Luminaires come in a variety of Colors, designs and Wattages so our clients get what they need. As manufacturers, we are able to customize and create luminaires as per the needs of the client
- Our Affordable LEDs are low on maintenance and high on output & efficiency which help you cut costs drastically
- JECOR LEDs also reduce your dependence on the Grid. Areas with frequent power cuts can also save by using a smaller capacity inverter or generator. Moreover, renewable energy options like Solar Energy and Wind Energy become more feasible due to lower power requirement

MAINTENANCE AND REPLACEMENT OF LUMINAIRES

- JECOR LED Luminaires last 2.5 times longer than regular CFLs and over 10 times longer than GLS and Incandescent Lamps.
For example: A JECOR LED Tube Light lasts 40,000+ Hours, over 2.5 times when compared with a 15,000 hour lasting CFL Tube.
- This ensures that you don't have to replace the Luminaires as often. This is because LEDs last for several years and help reduce maintenance costs.
- Our prompt customer service ensures that you always get the best after sales support through our PAN India network of 30+
- Our technicians are only a phone call away to offer support and answer any queries

COST CAPITALIZATION

- By switching to Jecor LEDs, you may decide to incur an up front cost rather than constantly replacing CFLs and Incandescent Lighting an incurring high maintenance costs.
- Doing this means that you will be able to classify these Luminaires as assets in your books thereby Capitalizing it in your Balance Sheet.
- Depreciation on these Luminaires would entitle you to a Depreciation Tax Shield while filing for taxes each year which will reduce the amount of taxes.
- This way institutions can save up to 34% of the up front cost of the product over its life span effectively reducing the price of the luminaires itself.
